

PAEDIATRIC ALLIED HEALTH SERVICES

Artius provides specialised Paediatric Allied Health Services to children with a disability or developmental delay.

Our multidisciplinary services are designed based on the latest evidence based practices and are designed to provide early intervention services that address our clients developmental needs and build their capacity.

Our Paediatric Allied Health Team includes:

- Occupational Therapists
- Speech Pathologists
- Psychologists
- Physiotherapists

We accept referrals for **Paediatric Allied Health Services** under the following funding models:

- Helping children with Autism
- Better Start for Children with a Disability
- Private fee paying/Self-funded clients
- National Disability Insurance Scheme (NDIS)
- Access to Allied Psychology Services (ATAPS)
- Laying Down the Tracks (under the Rural Primary Health Services program)

What are the costs of Artius Paediatric Allied Health Services?

The costs of Artius **Paediatric Allied Health Services** vary depending on the program your child is being treated under, the session duration, service type (individual or group) and whether travel is required. Please review our Paediatric Allied Health Services price guide via our website for further details.

How do I access Artius Paediatric Allied Health Services for my child?

Your child may access private fee paying **Paediatric Allied Health Services** by directly contacting Artius without a referral. To access funded or rebated services you should arrange an appointment to see your family GP, Paediatrician or other health professionals to determine their eligibility for the relevant program.
